

Joburg's population is growing

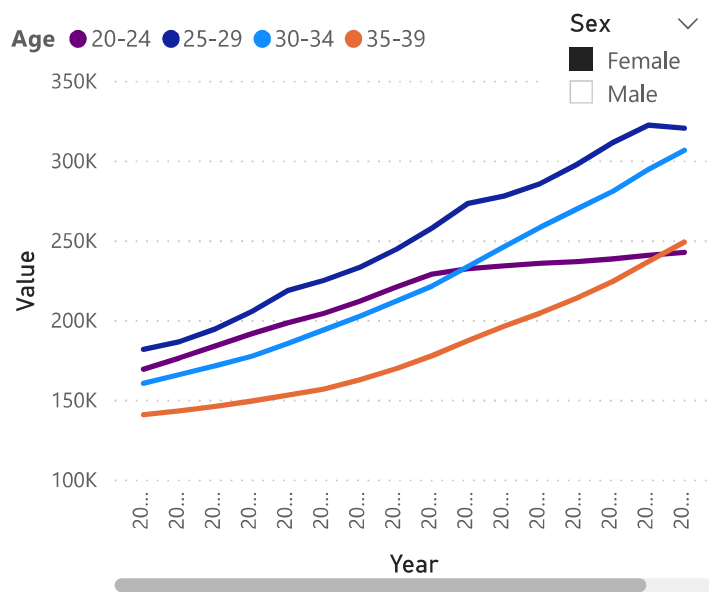

Joburg's rate of growth has slowed

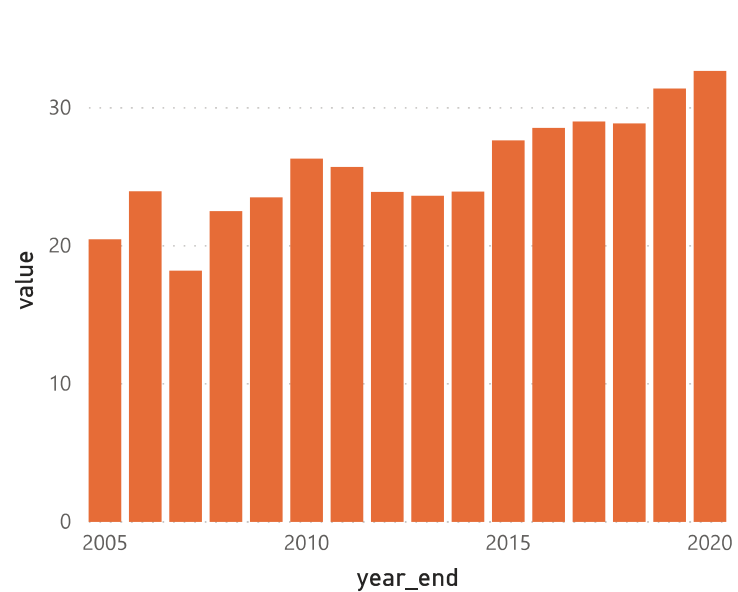

Majority of the population is between 20-39

What's happening to the youth?

Youth unemployment is rising

It's unlikely people between the age of 20-29 are leaving Joburg for work opportunities - so why is this happening?

- HIV rates are high among this age group
- Lack of jobs push youth into drugs and criminal activities
- Migrants are probably over the age of 30, skewing the statistics
